DEFERRED COMPENSATION

The Deferred Compensation Plan (also called a "457" plan) allows for tax-deferred savings to supplement Florida Retirement System and Social Security benefits. Participants have the opportunity to determine an investment strategy based on their pre-taxed contributions. The State does not match the participant's contribution. The Plan offers:

• **Pre-tax savings advantages.** No current federal income taxation on contributions to the Plan and earnings on savings accumulate tax-deferred until distribution.

- Convenient payroll deductions. Contributions from paychecks throughout the year.
- Flexibility. Personally, decide how much to save (up to the annual IRS contribution limits) and how to invest with the four Investment Providers and their broad array of investments. Change contributions or investment selection any time.
- Portability. Once you leave employment stay in the Plan and take a distribution at any time without an IRS penalty. When leaving State employment, take your 457-plan account with you in cash, or as a rollover to an Individual Retirement Account (IRA) or another employer's qualified retirement plan that accepts rollover contributions.
 The opportunity to roll other pretax savings into the plan. Roll-overs from qualified DROP, 401(k), 403(b) or traditional IRA accounts are permitted.
- Maximum Contributions. Under age 50 (\$19,500 per calendar year), Age 50 and above (\$26,000 per calendar year), and Age 50+ for standard Catch-Up (\$39,000 per calendar year).
